[byronsadik@gmail.com](mailto:byronsadik@gmail.com)

## DEVELOPMENT SKILLS

*Core Skills:* JavaScript, HTML5/CSS3, ReactJS, AngularJS, jQuery

*Proficient:* Node.js, Express.js, Ruby on Rails

*Additional Technical Skills:*

MVC | JSON | AJAX | Webpack | Gulp | Command-Line Git | SASS | LESS | HAML | Heroku | Agile | ES6 | |  
Adobe DTM | Adobe Analytics | Adobe Enterprise Marketing | Photoshop | GIMP | Ubuntu | Linux

## SIDE PROJECTS

### **Health Grade App** [github.com/byronsadik/health-grade](https://github.com/byronsadik/health-grade)

- Created React app (using create-react-app tool) to automatically display health grades of local restaurants.
- App uses Node.js API endpoint (using Express) containing both API tokens (to get zip user's zip code and get restaurants from cityofnewyork.us API).

### **Kanye Or Trump** [github.com/byronsadik/kanye-or-trump](https://github.com/byronsadik/kanye-or-trump)

- Created React app (using create-react-app tool) game generating a random quote from either Kanye West or Donald Trump, and allowing the user to select who actually said it.
- Uses React best practices of state management to manage quote templating and scorekeeping.

## WORK EXPERIENCE

### **Freelance Web Developer**, ByronSadik.com, New York, NY, June 2018 to Present

- Developed freelance sites along with implementing marketing pixels and third-party plugins.
- Completed official ReactJS.org tutorials.
- Created two React-based side projects, KanyeOrTrump and Health Grade App.

### **Web Analytics Developer**, Scholastic Corporation, New York, NY, May 2016 to March 2018

- Spearheaded Adobe DTM and Adobe Analytics implementation across all Scholastic web properties.
- Worked with analysts, project managers, and engineers to create data solutions.
- Created and QA'd data layer models and specifications for web engineers.

### **Front End Developer**, Complex Media, New York, NY, Jul. 2015 to Feb. 2016

- Created and added buttons, arrows, and visual elements to ntrsctn.com and theridechannel.com.
- Utilized BEM CSS conventions and mixins, classes, and other SASS elements in stylesheets.
- Updated site logic and templates in Laravel.

### **JavaScript Developer**, Ginkgotree, Detroit, MI, Jul. 2014 to Jan. 2015

- Coded and tested new templates, features, and third-party APIs for ginkgotree.com.
- Added new endpoints to suit new features and data from front-end.
- Wrote Ruby code to query database for sales team tool.
